This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. "Words and Phrases"

Is a collection of the judicial and statutory definitions which are found in American reports and statutes.

A judicial definition of a word carries the same sort of weight as a judicial interpretation of the law.

"Words and Phrases" is a work for constant office reference,—as necessary as a dictionary.

The Hornbook Series

Is a uniform series of practical handbooks on all the principal subjects of the law.

The "Hornbook" plan is to give the formulated principles and rules of the law in numbered paragraphs printed in black-letter type. These form a terse synopsis of the special subject, giving a bird's-eye view of the whole. The commentary, in different type, immediately follows the black-letter; the notes, in still different type, contain a copious citation of authorities.

"So much has been written upon the merits of the Hornbook Series that anything additional may seem superfluous; yet we cannot refrain from commenting, in passing, upon the general utility, merit, and scope of the series. * * * The series is of untold value to the practicing lawyer, enabling him to find, and refresh his mind in an instant upon, any fundamental principle or variation therefrom of which he may be in doubt, and furnishing an ever-ready and convenient digest of the law."

Cooley's Brief Book on Insurance.

A new and practical work for the practical lawyer.

The purpose of the Brief Book on Insurance is to supply the practitioner with a complete series of briefs on every phase of the Law of Insurance. While the general and well-settled principles are succinctly stated and sustained by adequate citation of authorities, the special feature of the work, that which distinguishes it from text-books in general, is the more extended discussion of the exceptional phases of the contract and of the law as applied thereto.

The aim of the work is to take up every question that has been raised in relation to the contract of Insurance, and to brief the law applying to such question,—not only to state what the decisions of the courts have been, but also to show, as far as possible, the reasons for such decisions, and the theories on which the courts have distinguished or attempted to reconcile apparently conflicting cases.

Five volumes (Vol. 5 containing the Index and complete Tables of Cases). Buckram or sheep binding as preferred. $27 delivered.

The National Reporter System

Is a comprehensive series of State and Federal law reports, covering the whole country, and including many cases omitted from the several official State Reports. It furnishes the Bar with reports which are, as a rule, the first published, and which cost about one-fourth as much as the official editions. They are authentic, being furnished to the publishers in manuscript by court officials, and generally revised in proof by the Judge who wrote the opinion. Besides giving all the current cases, the Reporters contain over one-half of all reported American case-law, and this the latest part. The System includes:

SEVEN STATE REPORTERS (Northeastern, Atlantic, Northwestern, Pacific, Southeastern, Southwestern, and Southern), reporting the courts of last resort of all the states and territories.

THE NORTHEASTERN REPORTER covers the Supreme Courts of Massachusetts, Ohio, Indiana, and Illinois, and the Court of Appeals of New York. A set of the 79 back volumes covers everything in 391 volumes of the corresponding states, and costs about one-fourth as much. The current numbers carry the first authentic report of the current decisions of these five states.

THE FEDERAL REPORTER, the organ of the U. S. Circuit and District Courts, including, also, the earliest reports of the U. S. Circuit Courts of Appeals.

What Massachusetts Librarians say of the National Reporter System.

"The Reporter System is entirely satisfactory for the purposes intended, and the Library would not sell it except for a substantial advance over the sum for which it could be immediately replaced,—which is, of course, practically equivalent to saying we would not sell."—EDW. HIGGINSON, Ch. Com. Fall River Law Library, Mass.

"No purchase that we have made of law books has been more satisfactory than the National Reporter System."—WARREN A. Reed, Plymouth Co. Law Library, Brocton, Mass.

"The National Reporter System, which has been placed in the library of the New Bedford Bar Association, affords great satisfaction. I know of nothing that can compete with it."—F. A. MILLIKIN, Sec'y New Bedford Bar Ass'n, Mass.

"Our Bar are greatly pleased with your National Reporter System, and find it in every respect most satisfactory."—H. J. FULLER, of the Committee for Bristol Co. Law Library, Taunton, Mass.

"The National Reporter System has proved very satisfactory, and is used to a large extent as a substitute for the complete reports of the various states."—CHARLES S. DAVIS, Plymouth Co. Law Library, Plymouth, Mass.

"Your Reporters are well prepared, and form a good substitute for the official reports, or, as in our case, a sort of duplicate for the period covered."—FRANCIS W. VAUGHN, Librarian Social Law Library, Boston.

"We would not be without your Reporter System on any account."—A. M. PORTER, Librarian Boston Bar Association.

"The National Reporter System is indispensable to libraries. It is a greater boon still to lawyers who do not have ready access to a large library."—C. B. TILLINGHAST, State Library of Massachusetts.

The Federal Cases.

A reprint (and practically, though incidentally, a codification) of the decisions of the Federal Courts from the earliest times to the time of the Federal Reporter,—1880. It includes all the cases in the old Circuit and District Court Reports, with annotations, besides some 6,300 cases there omitted. The chief features of the publication are:

Exhaustiveness.

The series includes all the decisions in the U. S. Circuit and District Court Reports, and also all heretofore unreported and scattering cases which the most exhaustive search could discover.

Annotations.

Each case contains a reference to every subsequent case in which it is cited, and additional notes are given with the more important cases.

Arrangement.

All cases are arranged alphabetically, so that they may be most easily found in whatever form cited; and also numerically, so that they may be easily cited from this series.

Compactness.

In the originals, the matter here reprinted makes about 150 volumes, besides the fugitive cases and those not before reported, the annotations, and other new matter. This series is complete in 31 large octavo volumes, Reporter size, including the digest.

Corrections of Judges.

The Federal judges from the first expressed a warm interest in having the errors in former publications of their opinions corrected in this series, and in many instances they personally examined the proofs.

A New, Complete and Definitive

Massachusetts Digest

Annotated

Compiled under the American Digest Classification Scheme, by the Editorial Staff of the American Digest System.

Covering Vols. 1 to 189 Mass. Reports.

Parallel references have been included to show where the Massachusetts cases have been reported in—

Vols. 1 to 76 Northeastern Reporter
Vols. 1 to 100 American Decisions
Vols. 1 to 60 American Reports
Vols. 1 to 107 American State Reports
Vols. 1 to 70 Lawyers' Reports Annotated.

The date of each decision is shown in the digest paragraph.

Where cases have been **carried to the U. S. Supreme Court**, the final decision is indicated with references to the United States Reports, in the official edition and also in the "Lawyers' Edition" and the Supreme Court Reporter.

A complete **table of cases digested** is given, showing the exact column where each is digested, and giving the parallel citations to the different reports.

A **table of constitutional provisions and statutes construed** has also been added.

8 large volumes. Bound in American Law Buckram. $48 delivered.

The American Digest System

Is the only enterprise giving complete control of all American judicial authorities from the earliest times. It is published by the West Publishing Co., and includes:

THE CENTURY DIGEST, a new and complete digest of all reported American cases from 1658 to 1896, under a single topical arrangement, in one series. (See opposite page.) It is kept constantly up to date by

THE AMERICAN DIGEST, a current bound digest of the current decisions of the whole country, as reported in the National Reporter System, the State Reports, and elsewhere. This series connects with the Century without omission or duplication.

THE AMERICAN DIGEST MONTHLY, a current digest of the latest cases, issued as a stout pamphlet every month. These numbers supplement the latest bound volume of the digest, and serve as advance sheets of the next.

The Century and American Digests are all under a uniform classification, and the arrangement of matter makes the decisions of each state separately available. This classification has been found so logical and practical in its analysis of the law that the American Bar Association has recommended it for universal adoption as the basis of a uniform system of digesting.

The Century Digest.

Robert O. Harris, District Attorney, Brockton, Mass., writes:

With the Century Digest, the limitations of the average law office in the way of making a complete, exhaustive study of any questions are removed. When the resources of my own library are exhausted, the key to the great libraries is in my hand, and I can go to them with certainty, examine any case, and come away without having had to lose time "prowling" to find cases.

This letter points out one of the practical ways in which the Century Digest saves work and time. It gives you, in your own office, a key to the reports which may be found in the most complete law library; you can find from it what decisions there are on the point you are investigating; and if you then want to examine the report itself, you can go to the public library with your citations all in hand, and "lose no time prowling to find cases."

It makes all the authorities from all the states on every litigated legal question available.
